

## Volt Europe awarded industry accolade

### Volt Europe win Best IT & Telecoms Staffing Company 2008

08 December 2008

Volt Europe has been named the 2008 Best IT & Telecoms Staffing Company by the Association of Technology Staffing Companies (ATSCo). Stephanie Elliott, Managing Director, and Richard Herring, European Staffing Services Director, accepted the award on behalf of Volt Europe.

ATSCo held their 2008 Charity Ball at the Intercontinental Hotel in London's Park Lane on Friday evening, November 21, where over 550 of the UK's top staffing leaders and businesses enjoyed a glittering event which culminated in the annual awards ceremony.

Volt distinguished itself in this evolving and innovative business sector following initial shortlisting and analysis of their business over the last 12 months, and after a rigorous interview by an independent panel of judges.

At the award presentation, Ann Swain, Chief Executive of ATSCo quoted the judges' description of Volt as, "A company who's operational and performance improvements have gone from strength to strength. An unbending commitment to quality is the driving force behind this year's winner."

This is the second year Volt were shortlisted as finalists in the IT & Telecoms Staffing Company of the Year category and coincides with Volt celebrating 30 years of operating in Europe. Following the award, Stephanie Elliott said, "This is a fantastic achievement for everyone at Volt and is a true recognition of our commitment to our corporate values. Our passion for providing ongoing and improved value to our customers is something that we at Volt pride ourselves on.

## PRESS RELEASE

To be recognised as the best, by an independent panel and amongst such a high standard of ATSCo associated companies, is a tribute to Volt's continued investment and commitment to raising service excellence. Stability and value have been the cornerstones of Volt's growth over the past 30 years, and during these times of economic uncertainty, it is important that clients and candidates can count on Volt now and for the next 30 years and beyond."
